

# FIRST<sup>®</sup> LEGO<sup>®</sup> League

2018-19

## SVDP Robotics

FIRST Lego League - Grades 4-6

*Tomorrow's innovators practice imaginative thinking and teamwork. Guided by two or more adult Coaches, FIRST LEGO League teams (up to 10 members, grades 4-6) research a real-world problem such as food safety, recycling, energy, etc., and are challenged to develop a solution. They also must design, build, program a robot using LEGO MINDSTORMS<sup>®</sup>, then compete on a table-top playing field.*

*It all adds up to tons of fun while they learn to apply science, technology, engineering, and math concepts (STEM), plus a big dose of imagination, to solve a problem. Along their journey, they develop critical thinking and team-building skills, basic STEM applications, and even presentation skills, as they must present their solutions with a dash of creativity to judges. They also practice the Program's Core Values, which emphasize discovery, teamwork and good sportsmanship.-*
